WORK EXPERIENCE

Software Developer

October 2023 – Present

Mumtaz Eagle Ltd • Kabul, Afghanistan

- Engineering Leadership:** Coordinated software development workflows, performed code reviews, and ensured high code quality and timely feature delivery.
- Hospital ERP System:** Architected and deployed an end-to-end hospital management platform handling patient records, pharmacy inventory, and administrative reporting.
- Enterprise ERP Suite:** Designed integrated HR, finance, procurement, and inventory modules to streamline cross-departmental operations.
- API Standards & Performance:** Standardized REST API documentation and automated testing using Postman and Insomnia, significantly reducing integration error rates.

Technologies: Node.js, PHP, Laravel, Livewire, Vue.js, React, TypeScript, Tailwind CSS, REST APIs, WebSockets, Redis, SQL, Git, Postman, Insomnia

WORK EXPERIENCE (CONTINUED)

Software Developer

July 2022 – September 2023

Afghanistan Atomic Energy Agency • Kabul, Afghanistan

- **Agency ERP Solution:** Delivered a government-wide ERP system managing HR records, procurement, inventory tracking, and executive project reporting.
- **Workflow Automation:** Developed custom automated data entry and operational tracking tools, improving data accuracy across departments.
- **Quality Assurance:** Implemented automated UI/integration testing with Selenium, performed regular data audits, and managed Git version control.

Technologies: PHP, Laravel, Blazor, ASP.NET Core, Entity Framework Core, Selenium, Git, SQL, C++

Software Developer

January 2016 – January 2020

PATH Organization • Kabul, Afghanistan

- **Database Architecture:** Designed and maintained relational database models for enterprise web applications, ensuring high data reliability.
- **Legacy Refactoring:** Refactored legacy PHP codebases to enhance runtime performance, improve code maintainability, and lower hosting overhead.
- **Cross-Functional Collaboration:** Partnered with product owners and team leads to optimize user experience and data collection processes.

Technologies: PHP, MySQL, Laravel, JavaScript, Bootstrap, HTML5, CSS3

FEATURED PROJECTS

Hospital ERP System

Complete hospital suite covering patient intake, medical records, pharmacy stock, QR code tracking, and billing.

TALL Stack (Tailwind, Alpine, Laravel, Livewire), MySQL

Mumtaz Eagle Corporate ERP

Enterprise platform unifying HR processes, financial accounting, procurement, asset tracking, and approval flows.

TALL Stack, Mary UI, Daisy UI, MySQL

Eagle Chat & Eagle Space

Real-time messaging platforms with workspace channels, active presence, and WebSocket server management.

Laravel REST API, Reverb WebSockets, Redis, Livewire

Atomic Energy Agency ERP

Centralized administration and inventory system optimizing multi-department government workflows.

Blazor, C#, ASP.NET Core, Bootstrap, SQL

Additional Systems Developed: Object Detection & Tracking, Employee ID & Attendance Systems, E-Commerce platforms, Scholarship Management System, and Python data-cleaning utilities for Kobo forms.

EDUCATION

Master's Degree in Information Systems

Kabul University

June 2023 – Present

Bachelor's Degree in Computer Science

Karwan University

Software Engineering • GPA: 3.63 / 4.00
April 2016 – December 2019

Ranked 1st

CONTINUOUS LEARNING

- **Frontend Mentor:** Mastered complex responsive UI patterns.
- **CodeSignal:** Solved algorithmic challenges to optimize runtime performance.

SOFT SKILLS & INTERESTS

Soft Skills: Technical Leadership, Teamwork, Problem Solving.
Interests: Artificial Intelligence, Sudoku, Running, Mountain Climbing.
